1. Cloudy clearing by early evening. Temperatures above average. Winds light increasing to moderate by early morning with occasional strong gusts. Winds decreasing to light by early evening.
2. Becoming cloudy overnight with early morning showers. Maximum temperatures slightly below normal. Minimum temperatures near normal. Winds light becoming moderate by late morning and decreasing to light by late afternoon.
3. Cloudy with showers by mid-morning and an afternoon thundershower ending by early evening. Temperatures slightly below normal. Winds light increasing to moderate by early afternoon with strong gusts decreasing to light by late evening.
4. Cloudy with overnight snow showers changing to rain showers by early morning ending by late afternoon. Temperatures below normal. Winds light with occasional moderate gusts.
5. Cloudy with morning showers. Temperatures below normal. Winds light becoming moderate by early morning with strong gusts in mid-afternoon.
6. Cloudy with overnight fog. Temperatures below normal. Moderate winds decreasing to light by late afternoon.
7. Cloudy. Temperatures near normal. Winds increasing to moderate overnight and decreasing to light by late evening.
8. Clearing overnight. Maximum temperatures slightly above normal and minimum temperatures slightly below normal. Winds light increasing to strong by late morning and decreasing to moderate by late afternoon.
9. Mainly sunny becoming overcast by early evening. Temperatures near normal. Moderate winds increasing to strong by late morning and decreasing to light by early evening.
10. Overcast with an overnight shower clearing by late evening. Maximum temperatures slightly above normal and minimum temperatures near normal. Winds light increasing to moderate with strong gusts by early morning and decreasing to light by late afternoon.
11. Mainly sunny with a few cloudy periods in the afternoon. Maximum temperatures near normal and minimum temperatures slightly below normal. Winds light increasing to moderate with strong gusts by late morning and decreasing to light by late evening.
12. Mainly sunny becoming cloudy by late afternoon. Maximum temperatures near normal and minimum temperatures below normal. Winds light increasing to moderate by late morning and to strong by early evening.
13. Overcast with showers beginning by early morning and ending by late evening. Maximum temperatures below normal and minimum temperatures near normal. Winds strong with gale force gusts decreasing to moderate by late morning and increasing to strong with gale force gusts by late afternoon.
14. Cloudy clearing by late afternoon. Maximum temperatures well below normal and minimum temperatures below normal. Winds strong with gale force gusts decreasing to light by early evening.
15. Sunny clouding over by early morning with afternoon showers. Maximum temperatures below normal and minimum temperatures well below normal. Winds light increasing to strong with gale force gusts by early afternoon.
16. Cloudy with an overnight shower. Temperatures near normal. Winds decreasing to light overnight and increasing to moderate by late morning.
17. Cloudy with a few evening flurries. Maximum temperatures near normal and minimum temperatures slightly below normal. Moderate winds increasing to gale force with storm force gusts by early morning decreasing to light by early evening.
18. Cloudy clearing by early afternoon. Temperatures well below normal. Winds increasing to moderate overnight with strong gusts decreasing to light by early evening.
19. Sunny clouding over by early afternoon. Temperatures well below normal. Winds light.
20. Clearing overnight, becoming cloudy by early morning with afternoon snow and clearing by early evening. Temperatures well below normal. Winds light.
21. Sunny clouding over by late morning with mixed rain and snow in the evening. Temperatures well below normal. Winds light increasing to moderate with strong gusts by early evening.
22. Cloudy. Temperatures near normal. Moderate winds with strong gusts and occasional afternoon gale force gusts.
23. Overcast with snow beginning by early evening. Maximum temperatures well below normal and minimum temperatures slightly below normal. Moderate winds decreasing to light by early morning.
24. Cloudy with snow ending by late morning. Maximum temperature well below normal and minimum temperature below normal. Winds light.
25. Cloudy. Maximum temperatures well below normal and minimum temperature below normal. Winds light increasing to moderate by late morning.
26. Cloudy clearing by early evening. Maximum temperature below normal and minimum temperature near normal. Moderate winds.
27. Becoming cloudy overnight with showers beginning in the late afternoon. Temperatures near normal. Moderate winds with strong gusts increasing to strong with gale force gusts in early morning. Winds decreasing by late afternoon to moderate with strong gusts.
28. Overcast with showers changing to freezing rain by early afternoon. Temperatures near normal. Moderate winds with strong gusts increasing to strong by late afternoon.
29. Overcast with freezing rain changing to snow overnight. Visibilities reduced to less than one kilometre by late morning in snow and blowing snow. Blowing snow ending by early evening. Temperatures well below normal. Strong winds with gusts to gale force by early morning decreasing to moderate by early evening.
30. Snow ending by early morning becoming clear by mid-morning. Temperatures well below normal. Winds decreasing to light overnight.
31. Clear becoming cloudy with snow by early morning and ending by early afternoon. Temperatures well below normal. Winds light.
