

1. Clear. Maximum temperatures near normal and minimum temperatures slightly below normal. Winds light.
2. Clear becoming overcast by early morning. Temperatures slightly above normal. winds light increasing to moderate by early morning and decreasing to light by early afternoon.
3. Clearing overnight. Temperatures near normal. Winds light increasing to moderate by early morning and decreasing to light by early evening.
4. Clear becoming cloudy by early morning. Maximum temperatures near normal and minimum temperatures slightly above normal. Winds light increasing to moderate by early morning.
5. Variable cloud increasing to overcast with rain showers by early afternoon. Temperatures well above normal. Winds moderate decreasing to light by late morning and increasing to moderate by late evening.
6. Rain ending overnight becoming mainly cloudy by early morning. Maximum temperatures near normal and minimum temperatures above normal. Winds moderate.
7. Cloudy becoming sunny by early afternoon. Temperatures near normal. Winds decreasing to light overnight.
8. Increasing cloud with snow flurries overnight becoming sunny by early morning and becoming overcast with mixed rain and snow by early afternoon. Temperatures above normal. Winds light increasing to moderate by early evening.
9. Rain and snow ending overnight with variable cloudiness and few flurries in early morning. Temperatures below normal. Winds moderate with strong gusts decreasing to light by late morning.
10. Becoming overcast overnight with snow by early morning ending by late afternoon and freezing drizzle in early evening. Maximum temperatures well below normal and minimum temperatures slightly below normal. Winds increasing to moderate overnight and decreasing to light by late afternoon.
11. Clearing overnight becoming mainly sunny by late afternoon. Temperatures well below normal. Winds increasing overnight to moderate with strong gusts decreasing to light by early evening.
12. Clear increasing to variable cloudiness by early evening. Temperatures well below normal. Winds light increasing to moderate by early afternoon.
13. Becoming overcast with snow overnight. Maximum temperatures below normal and minimum temperatures near normal. Winds moderate decreasing to light by late morning.
14. Overcast with showers in early evening. Temperatures near normal. Winds light increasing to moderate overnight decreasing to light by late afternoon.
15. Overcast. Maximum temperatures near normal and minimum temperatures above normal. Winds light.
16. Mainly cloudy with showers overnight. Maximum temperatures near normal and minimum temperatures slightly above normal. Winds light.
17. Mainly cloudy with showers in late evening. Temperatures above normal. Winds light increasing to moderate with strong gusts by late morning.
18. Overcast with rain by late morning. Maximum temperatures near normal and minimum temperatures above normal. Winds moderate decreasing to light by late evening.
19. Overcast with rain changing to freezing rain by late afternoon. Temperatures slightly below normal. Winds light increasing to moderate overnight and to strong with gusts to gale force by early morning.
20. Overcast with freezing rain ending overnight and few flurries ending by late morning. Maximum temperatures well below normal and minimum temperatures slightly below normal. Winds decreasing to moderate overnight with strong gusts by early evening.
21. Overcast with snow by early morning ending by early evening. Maximum temperatures well below normal and minimum temperatures below normal. Moderate winds increasing to strong overnight and decreasing to moderate by early evening.
22. Overcast with freezing rain in late evening. Maximum temperatures well below normal and minimum temperatures slightly below normal. Winds decreasing to light overnight and increasing to moderate by late morning and decreasing to light by late afternoon.
23. Mainly cloudy with freezing rain ending overnight. Temperatures below normal. Winds light.
24. Overcast with flurries overnight ending in late evening. Maximum temperatures well below normal and minimum temperatures near normal. Winds light increasing to moderate by early morning and decreasing to light by late afternoon.
25. Mainly cloudy with snow overnight ending by late morning and clearing by early evening. Maximum temperatures below normal and minimum temperatures near normal. Winds light increasing to moderate overnight and decreasing to light by early evening.
26. Clear. Maximum temperatures near normal and minimum temperatures slightly below normal. Winds light.
27. Clear becoming mainly cloudy by early morning. Maximum temperatures slightly above normal and minimum temperatures near normal. Winds light increasing to moderate by early morning and to strong by late morning decreasing to moderate with strong gusts by early evening.
28. Cloudy clearing by late morning. Temperatures well above normal. Winds moderate with strong gusts decreasing to light by early evening.
29. Increasing cloud with showers overnight. Maximum temperatures near normal and minimum temperatures above normal. Winds light increasing to moderate by late morning and decreasing to light by early evening.
30. Mainly cloudy with early morning shower becoming overcast by early evening. Temperatures above normal. Winds light increasing to moderate with strong gusts overnight decreasing to light by late evening.

Note/Avts 1. Climatological Day/Jour de climatologie 00.01 C.S.T. - 00.00 C.S.T.
 2. Normal/Normale 1951-1980
 3. Extremes for period of record/Extrêmes pour la période de registre
 4. Maximum rainfall recorded in: may overlap calendar days/Hauteur de pluie maximale enregistrée en: peut-être pour plus d'une journée du calendrier
 5. * Indicates most recent occurrence/Indique le plus récent
 6. * Indicates first of more than one occurrence/Indique le premier de plusieurs
